ABOUT ME

I would describe myself as someone who is honest, caring, intelligent, motivated, hardworking, and ambitious. I am an easy going person & don't get easily disturbed by downs in my life. I like to help people to find solutions to their problems. I also enjoy working out, traveling, watching movies, going out for dinner, and having great intellectual conversations!

WORK EXPERIENCE

30/11/2016 – CURRENT – Tirane, Albania

Software developer

BlackSoft

Team leader and collaborator of the company's 1st project. My main responsibility was to create a Sport Betting & iGaming software from scratch. I was responsible for choosing the right tools and technologies in order to build the app. I also participated in meetings with the clients so I can could hear their suggestions. My other responsibilities includes maintaining, securing, and sharing the source code in the easiest way between my team. I was also responsible for releasing or publishing the application, checking for network overloading, load balancing and more.

01/05/2015 – 01/12/2016 – Tirane, Albania

Software developer

Morix

A company started in 2012 as a software development company specialized in high technology software application development. My main responsibilities are to create, maintain or update an existing application. I have to accomplish the tasks given at the start of the day and to summarize the results at the end of the day. I am mostly focused at the application functionality compared to it's appearance. Also I am responsible at releasing or publishing the application, checking for network overloading, users injections and useless data consumption.

01/11/2014 – 01/06/2018 – Tirane, Albania

Web developer

EESTEC LC Tirana

Electrical Engineering Students' European Association is an apolitical, non-governmental and non-profit organization which targets and trains through its activities students from electrical profile Universities, Institutes and Technical Schools in Europe.Let's Be Humans is an initiative of this organization. My responsibility is to create and maintain the Let's Be Human Albania official website where users will be able to login, check and help with everything they can in order to help the people in need.
